EXPERIENCE

CodSoft

June 2026

Machine Learning Intern

Remote

- Developed machine learning models for classification tasks using real-world datasets and data preprocessing techniques.
- Built an end-to-end SMS Spam Detection system with a Flask-based web interface and deployed the application online.
- Implemented Credit Card Fraud Detection and Movie Genre Classification models using machine learning and NLP techniques.
- Utilized Google Colab for model training, evaluation, and experimentation throughout the internship.

PROJECTS

Gloovi Salon Booking App | Flask, SQLite, Razorpay, HTML, CSS, Render

- Developed a full-stack salon booking platform enabling users to register, log in, and schedule appointments online.
- Implemented secure user authentication and session management using Flask with SQLite for persistent data storage.
- Integrated Razorpay payment gateway to support secure online transactions and booking confirmations.
- Built an AI-powered chatbot and deployed the application on Render for real-world accessibility.

Car Rental Platform | React, JavaScript, MongoDB, Vercel

- Developed a full-stack car rental platform enabling users to browse, search, and book vehicles online.
- Built a responsive frontend using React and JavaScript with dynamic vehicle listings and booking workflows.
- Integrated MongoDB for efficient storage and management of vehicle and user data.

Movie Recommendation System | Machine Learning, Flask, Render

- Built a machine learning-based recommendation system that suggests movies based on user preferences and similarity analysis.
- Performed data preprocessing, feature engineering, and recommendation generation using Python libraries.
- Developed and deployed a Flask-based web application for interactive movie recommendations.

EDUCATION

GH Raison College of Engineering, Nagpur

2023 – 2027

B.Tech, Computer Science and Engineering (Artificial Intelligence) | CGPA: 8.5/10

Nagpur, Maharashtra

Lal Bahadur Shastri Vidyalaya, Bhandara

2022 – 2023

Higher Secondary Certificate (Class XII) | 75%

Bhandara, Maharashtra

Lal Bahadur Shastri Vidyalaya, Bhandara

2020 – 2021

Secondary School Certificate (Class X) | 85%

Bhandara, Maharashtra

SKILLS

Languages: Python, C++, JavaScript (React.js), HTML/CSS, SQL (PostgreSQL, MySQL)

Tools: Git, GitHub, Figma, Render, Vercel
